TRELLISES

In order to ensure a source of consistently superior teak wood that is also environmentally friendly, we at Diamond Teak/Diamond Tropical Hardwoods develop and maintain our own teak plantations.

In 1992, we planted hundreds of thousands of trees in an effort to reforest areas of this country that had been completely denuded of forest. The trees are tended with great expertise and care, and in a process spanning decades, they produce the finest teak wood in the world. Each of our plantations is managed in a sustainable, environmentally sound way so that at least our small part of the tropical rainforest will remain permanently preserved.

As a result the dedication to detail and hard work show through in the quality and beauty of all our products.

We know of no other company that grows its own wood supply, and we would not have it any other way.

The mark of
responsible forestry

7 Planters Nesting pack of planters

Designed with raised feet to allow proper drainage and stackability.
All planter boxes are made from teak and stainless steel hardware.
Tree boxes are made with thicker floors for added strength.

We use sustainable wood that is beautiful with nice figure and character. Wood products protect the environment since we have FSC certified reforestation projects with chain-of-custody (CoC) so you are guaranteed of the sustainability of this natural substance. Solid wood adds beauty and character while sequestering carbon to make the world a cooler place.

TREE BOXES

Rectangular Tree Box
